

Proposal: E-Library at Suryodaya Foundation School (S.A.B. Public School)

Abstract:

In the current digital age of the ever-shrinking interconnected world, we want to expose our students to our world via the internet. E-libraries are an important component for exposing our students to not only a global perspective, but also, access to the knowledge the world has to offer. E-Libraries will give our students access to a plethora of open source e-library forums, consisting of tens of thousands of books from around the world. Furthermore, an e-library would be an excellent way for our students to do research based class work. At the Suryodaya campus, we have not had a library room since the earthquake on April 25th 2015. Our library is currently being set up in our new building, and we could use an e-library in the coming year starting in mid-April. Our aim in the coming year is to involve a lot more digital learning for educating our students. We are going to require our teachers to start doing more digital teaching. The e-libraries are essential to reach our goals of introducing and providing digital based education to our students. The world could be our campus.

Reasons for Necessity

1. We want the ability for our students to access tens-of –thousands of books on open-source e-libraries from around the world.
2. E-libraries can introduce our students to more digital and research based learning.
3. The e-library would help facilitate students' comprehension of universal systems of writing and citing sources.
4. E-libraries enables teachers to access more knowledge about what they are teaching. This can make lessons more interesting and enriching.
5. E-libraries can provide multi-lingual resources for new and better understanding of language and culture.
6. We want to expose our students to global perspectives.
7. The e-libraries can facilitate blended learning when not being used in daily library function.

Scope:

Since the merger of the three schools under Suryodaya Education Foundation, we have decided to place our secondary students at the Ananda Bhumi campus, Bhoj and Rtn. Samjhana Shah's school. The primary students will conduct classes at the Suryodaya campus. At the two campuses of S.A.B. Public School, we kindly request one small e-library facilities for each. The scope of e-library includes computers, printers and furniture.

Scope:

No	Item Name	Item Description
1.	Desktop Assembled PC	Processor core 2 Duo 2.2 Ghz, Memory 2 GB, Hard Disk 500 GB, ATX Casing, DVD R/W, Dell LED 15" Monitor, Keyboard and Mouse.
2.	Printers Brand Model	Canon 3010, Desktop Mono laser 3-in-1: print, copy & scan, Modern, eye-catching design, Easy to use vertical display, 18 ppm, 7.8 seconds First Print Out Time, Energy efficient
3.	Tables	Wooden tables
4.	Chairs	Iron Chairs
5	Internet Connection Material	DSL modem or hub, fiber wires and clips

Requirements and Cost:

No	Item	Quantity	Price NRP	Total NRP	Total Euro (1 euro = NPR 115)
1.	Desktop Computers	16	25,000	400,000	3478.3
2.	Printers	2	18,000	36,000	313.04
3.	Tables	8	15,000	120,000	1043.5
4.	Chairs	16	4,000	64,000	556.5
5.	Internet Connection Materials	1 hub Fiber Wire	2,000	2,500 Per meter Rs 25/-	21.8
			Total	622500	5413.14
